

## Lesson

Book title

Book link

## Learning Objectives

What do you want the kids to learn from this lesson?

## Summary

What is the book's description?

## Vocabulary

What are the key terms the kids need to know to understand this lesson or the activities?

## Key Concepts

What are the main takeaways you want the kids to know in a week?

## Think Alouds and Engagement Questions

### Before Reading

What questions can you ask related to the topic/book that you can ask your kids to get their attention and start their brains focusing on the topic you're about to read about?

### During Reading

What points in the book do you want to stop at? What do you want the kids to key in on? What do you want them to notice? What do you want them to think about?

### After Reading

What do you want to discuss with the kids? What do you want them to think about? What do you want them to remember?

## Activities

What do your kids need to practice to fulfill the Learning Objectives you outlined above? What sort of activities can you think of that will help them learn the Key Concepts? Are there games you can play? Worksheets you can make? Things you can build?

## Videos/Books

Are there any videos or books you want to show the kids or also read to them around this topic?
